

snom USB BT and snom HS BT

The Bluetooth headset and USB BT dongle combination has been developed for the snom 720 and snom 760 IP phones. The snom USB BT is not just compatible with the snom BT headset but can also be used with other Bluetooth headsets.

snom USB BT

The snom USB BT enables you to simultaneously connect your BT headset to two compatible Bluetooth devices, for example with a mobile

device and a snom 760 phone. If you receive a second call during a conversation, you can either reject the call or put it on hold.

snom USB BT feature list

- **Wireless compatibility:**
