

Protective Shell for snom m9/m9r/m3

- Shock absorbing for drop heights of up to 1 m (3.28 ft.)
- Completely recyclable
- Heat resistant between -40° C and +135° C (-40°F and +275° F)
- Resistant to acids, alkalis, and water
- Resistant to most oils and fats
- Belt clip included

The protective shell is specifically designed to securely hold the handset and protect it from jolts and soiling. The protective shell protects the handset from damages when it is accidentally dropped from heights of up to 1 meter (3.28 ft.). The material is soft and flexible, yet resistant to acids, alkalis, and water and to most oils and fats.

The sturdy swivel belt clip is easily attached to and removed from the protective shell by pressing the release button.

The protective shell does not interfere with the transmission range of the phone. It does not affect or change the acoustic characteristics of the phone.

The material, Santoprene™ 101-64, is a thermoplastic vulcanizate (TPV) in the thermoplastic elastomer (TPE) family and completely recyclable.

TECHNICAL DATA

- **Weight:**
approx. 56.5 g incl. belt clip;
approx. 73 g incl. belt clip and box
- **Dimensions (L x W x D):**
Approx. 133x56x35 mm
- **Dimensions with attached clip:**
Approx 138x60x48 mm
- **Dimensions of box:**
Approx 138x60x39 mm
- **Color:** Black
- **Material:** Santoprene™ 101-64
